

Pembroke Regional Hospital Speakers' Bureau

As a service to our community, the Pembroke Regional Hospital's Community Relations department has developed a Speakers' Bureau designed to give you and your organization an opportunity to learn more about our hospital, its programs and services, and other topics of interest.

Through this free service, physicians, healthcare professionals and others affiliated with the Pembroke Regional Hospital are made available to share their expertise with community or church groups, schools, service clubs, or businesses throughout the Upper Ottawa Valley and the areas served by PRH.

Today, as we experience rapid advances in medical technology and dramatic changes in the delivery of high quality healthcare, we recognize our role in community education.

As your community hospital, the Pembroke Regional Hospital is pleased to provide informative speakers to meet your needs.

PRESENTATIONS

The following topics are readily available, however if there is a specific health-related issue you are interested in but do not see listed, please let us know as we may be able to find a speaker to meet your needs.
