

Pembroke Regional Hospital

MEMO

To: All Staff and Physicians
From: Beth Brownlee, VP Clinical & Support Services / Chief Nursing Executive (CNE) and
Melanie Henderson VP Clinical & Support Services / Partnerships and Integration
Date: April 11th, 2024
Subject: Interim Clinical Director, Emergency Department (ED), ICU and Environmental Services (EVS)

As part of our Epic operational team, we have recognized the necessity of having the support of a full-time clinical lead to drive forward all of our processes. We are pleased to announce that Laurie Menard will be assuming this role.

To facilitate Laurie's full integration into this project, we have made the decision to reassign Laurie from her current position as Clinical Director of the Emergency Department (ED), ICU, and Pharmacy. We are excited to announce that Cheryl Summers will step into this interim role starting in May 2024.

Cheryl currently serves as the Clinical Manager of Acute Mental Health (AMH) and Environmental Services (EVS). She has been a valuable member of our organization since January 2002, previously providing leadership in Community Mental Health (CMH) before transitioning to her current role in March 2021.

During the upcoming months, there will be a transition period where Cheryl will initially provide support to ED, ICU, and continue to oversee EVS in the Director capacity, while Laurie will maintain her support to the Pharmacy Department.

As we proceed with finding a replacement for Cheryl, we will finalize the program reporting structure and communicate our plans accordingly.

Please join us in congratulating both Cheryl and Laurie!
