

Pembroke Regional Hospital

MEMO

To: All Staff and Physicians
From: Information Technology Department
Date: November 9, 2022
Subject: New Citrix StoreFront Page

On Wednesday, November 16th, the hospital will be changing over to the new Citrix StoreFront page. This change should only impact the design view as there are no planned functionality changes at this time. This change will assist in moving applications to a new Citrix environment that will help with stability and security.

Should you experience any issues with the new Citrix Storefront, please contact the helpdesk. Create a ticket or call the helpdesk at ext. 8000 with any issue that requires immediate attention.

The screenshot shows a Citrix StoreFront login interface. On the left, the text "Citrix | StoreFront" is displayed. On the right, there are two input fields: "User name:" and "Password:". Below these fields is a "Log On" button.
