

Pembroke Regional Hospital

President and Chief Executive Officer

Ideally situated in the heart of the Ottawa Valley, Pembroke Regional Hospital delivers a broad range of acute, post-acute, outpatient and diagnostic services to a mixed urban and rural population of approximately 55,000 residents in the City of Pembroke, the Town of Petawawa, and surrounding municipalities. With a dedicated staff of over 800, an engaged physician community and hundreds of active volunteers, Pembroke Regional Hospital is committed to following Catholic tradition and its mission to meet the physical, emotional, and spiritual needs of all and to deliver the safest and highest quality of care to every person, every encounter, every day.

Reporting to the Board of Directors, the President and Chief Executive Officer (CEO) is responsible for the general administration, organization and management of the Hospital. The CEO will oversee the continued integration of the Hospital into a more regional strategy with fellow Ontario Health Team (OHT) partners and will continue to seek out partnership opportunities with other organizations to improve the quality of care and access to services for this community. Fostering a culture that supports regionalization, collaboration and the betterment of the patient will be a key responsibility.

The ideal candidate will be a charismatic and empathetic leader with senior management experience in a complex community healthcare organization and an exemplary track-record of communicating with a variety of stakeholders including government, health care professionals, communities and the public. Appreciation for and support of the Hospital's Catholic identity, as well as commitment to all faiths and beliefs including the values of the Catholic Health Sponsors of Ontario, will be critical to success. A Master's degree in health administration or business or an equivalent qualification is strongly desired.
